61-23360

Trans. of Vodosnabzheniye i Sanitarnaya Tekhnika
(USSR) 1959, no. 12, p. 5-6.

DESCRIPTORS: *Centrifugal pumps, Operation, Gate
valves, Hydraulic valves.

Since the starting of a pump with the gate valve open
considerably simplifies the automation scheme of
pumping stations, and to some extent simplifies and
cheapens the equipment, it should be more widely
adopted in water supply systems, and this should be
borne in mind in the revision of current standards and
technical conditions for the design of water supply
systems. (Author)
